## “All about Actuarial Exams”

If you are considering a career as an actuary, get a head start by thinking about the actuarial exams. Two experts in the actuarial profession will give you an overview of the actuarial professional exams: what they are, courses you need, how to study for them, how important they are in your career, and much more.

### Speakers:

**Jacob Geyer**, Managing Director, Business Analytics and Underwriting Operations, Accident Fund Insurance Company of America

**Emiliano A. Valdez**, Director of the Actuarial Science Program, Michigan State University
