

Albert Cohen, PhD

CONTACT INFORMATION

Academic Specialist, Actuarial Sciences Program
Department of Mathematics
Department of Statistics and Probability
Michigan State University
E-mail: albert@math.msu.edu
E-mail: acohen@stt.msu.edu
Office: 517-355-4592
Campus Address: [C336 Wells Hall](#)

RESEARCH INTERESTS

Application of stochastic analysis to problems in risk theory, insurance, finance, operations research, and materials science. Currently, I am working on:

- Credit risk under partial information for bond pricing and credit spreads.
- Risk measures based on extremal statistics.
- Optimal agent behavior under reputational mechanisms.
- Optimal prediction of diffusions under uncertainty and under asymmetric information.

PROFESSIONAL MEMBERSHIPS

- [Society for Industrial and Applied Mathematics \(SIAM\)](#)
- [American Finance Association \(AFA\)](#)

ACADEMIC APPOINTMENTS

- Assistant Director / Director of Program Development** **Aug 2013 to present**
Actuarial Science Program, Michigan State University
Awarded Academic Specialist Continuing Status in June 2015.
- Affiliations
 - Department of Mathematics
(Chair: Dr. Keith S. Promislow)
 - Department of Statistics and Probability
(Chair: Dr. Frederi Viens)
- Acting Director and Program Coordinator** **Aug 2010 to Aug 2013**
Actuarial Science Program, Michigan State University
- Affiliations
 - Department of Mathematics
(Chair: Dr. Yang Wang)
 - Department of Statistics and Probability
(Chair: Dr. Hira Koul)
- Postdoctoral Researcher** **Aug 2007 to Aug 2010**
Department of Mathematics, Michigan State University
- “Unstable System Analysis and the Boltzmann Equation”
 - Supervisor: Professor Keith S. Promislow

EDUCATION

Carnegie Mellon University, Pittsburgh, PA

Ph.D., Mathematics, **August 2007.**

- Thesis Topic: A Probabilistic Analysis of Two Dimensional Grain Growth.
- Adviser: Professor David S. Kinderlehrer
- Areas of Study: Probability, Stochastic Calculus, Partial Differential Equations, Topological Networks.

Simon Fraser University, Vancouver. BC, Canada

M.S., Mathematics, July **2001.**

- Thesis Topic: Relaxation Methods in Micromagnetics.
- Adviser: Professor Rustum Choksi
- Area of Study: Applied Mathematics, Materials Science.

B.S., Applied Mathematics, May **1999.**

- *Honors*, First Class
- Minor in Physics

EDITORIAL
POSITIONS

- [1] Editorial Board Member, *Risks*. (**2016-Present.**)
- [2] Co-Editor, *Risks*. Special Issue "Young Researchers in Insurance and Risk Management" (**2018.**)
- [3] Co-Editor, *Risks*. Special Issue "Recent Advances in Mathematical Modeling of the Financial Markets" (**2015.**)

EXECUTIVE
CERTIFICATION

- [4] CEBA 30000: Executive Certificate of Education in Credit Analysis, School of Business Administration, Oakland University, MI. (**2014.**)

REFEREED
JOURNAL
PUBLICATIONS

- [5] Cohen, A. and Costanzino, N. *A General Framework for Incorporating Stochastic Recovery in Structural Models of Credit Risk*. *Risks*. 5(4), 65. (**2017.**)

ACADEMIC
SERVICE

Teaching Specialist Search Committee

Committee Member, Michigan State University. Discussed and selected from faculty applications. **2017.**

Council on Diversity and Community

Council Member, College of Natural Science, Michigan State University. **2014-15.**

Honors College Committee, Alumni Distinguished Scholarship

Committee Member, Michigan State University. Discussed and selected from student applications. **2013-14.**

Honors College, Faculty Mentor

Faculty Mentor for Professorial Assistant, Michigan State University. Mentored student in MSU Honors College in terms of academics and job preparation. **2012-15.**

Actuarial Scholarship Committee

Committee Chair, Michigan State University. Discussed and selected from student applications. **2011-14.**

Actuarial Specialist Search Committee

Committee Chair, Michigan State University. Discussed and selected from faculty applications. **2013.**

Corporate and Alumni Liaison

Michigan State University. Interacted with alumni and industry, advocate for our students and program. Helped to connect and solidify relations with local and national companies such as Humana, the Accident Fund, and Auto-Owners Insurance. **2010-2014.**

Actuarial Faculty Recruitment

Michigan State University. Due to the shortage of faculty to teach and advise in our program, I have helped to recruit adjunct faculty in Dr. Darren Mason (Albion College) and Jacob Geyer (the Accident Fund) to fill these roles. **2012-2014.**

STUDENT
ADVISING AND
MENTORING

Jonathan DiClemente

Undergraduate student in Actuarial Science and Mechanical Engineering, Michigan State University. Advised on career possibilities and entrepreneurship. Reference for successful application to M.Eng and MBA at Carnegie Mellon University. **2011-2013.**

Jimmy Dunn

Undergraduate student in Actuarial Science, Michigan State University. Advised on career possibilities and on Honors project on [Divorce Insurance](#) This work was presented at the Second Simon Lecture in Actuarial Science, Fall 2013 (MSU.) **2011–2013.**

Andrew Grossman

Masters student in Mechanical Engineering, Michigan State University. Thesis Committee Member, advised on financial analysis of solar cell installation and automation. Thesis: [Solar Photovoltaic Design Tool for non-Residential Buildings: From Blueprints to Array.](#) **2013–2014.**

Charles Lewis

Undergraduate student in Actuarial Science and Economics, Michigan State University. Advised on career possibilities and on Math 491B special project: [A Predictive Analytics Approach to the Merton Model in Default Modeling of Credit Products.](#) **2015.**

James P. Regan

Undergraduate student in Actuarial Science, Michigan State University. Advised on career possibilities and on project on [Using Predictive Modeling to Price Options.](#) This work was presented at the 2014 Undergraduate Research Seminar and will be presented at the [Third Simon Lecture in Actuarial Science](#), Fall 2014 (MSU.) **2012–2014.**

James Risk

Masters student in Statistics, Michigan State University. Advised on graduate school and academic career. Mentored research on [Correlations between Google search data and Mortality Rates.](#) Mentored as TA supervisor. Reference for successful application to PhD program in Statistics at UC Santa Barbara. **2012–2013.**

Irena Tesnjak

PhD Student in Statistics, Michigan State University. Thesis Committee Member. Dissertation Topic: *Superpositions of Ornstein-Uhlenbeck type processes driven by Levy noise and their applications to financial modeling.* **2015–2017.**

TEACHING EXPERIENCE

Michigan State University, East Lansing, MI

Faculty Actuarial Science Program

2010–Present

- Developed curriculum for courses in tandem with new BS degree in Actuarial Science.
- Lectured in these courses, developing professionally typeset lecture slides to aid in communication of major ideas in risk management.
- These classes include: Math 360,361,458 and STT 441,455,456, and 459. I have taught classes for SOA exams P,FM,MLC,MFE, & C.
- Also taught and developed typeset lecture notes for Math 320 (Analysis) and Math 301 (Math Education and Analysis.) Faculty at MSU and in both American and European universities have used these lecture notes in their class preparation.
- Faculty supervisor of projects in [Master of Science in Industrial Mathematics](#) for Auto-Owners Insurance and Consumers Energy . **2011-2013**
- Developed and taught a [Graduate Seminar in Enterprise Risk Management](#). Recruited graduate students and faculty to contribute presentations and lectures. **Spring 2013**
- Developed and taught a course in Insurance and Financial Economics for visiting students in the [Discovering America Program](#). **Summer 2013**
- Mentored a group of visiting students in the [Discovering America Program](#) who also enrolled in my Financial Derivatives for Actuaries (Math 458) class. Met weekly outside of class and worked with them on extra credit work and spoken English . **Fall 2013**
- Faculty supervisor of Math 491b project in pension plans and gainsharing. This work was presented by the students at the [Third Simon Lecture in Actuarial Science](#).
- Joint appointment in Department of Statistics.
- Sample student evaluations available upon request.

Visiting Research Instructor Department of Mathematics

2007-2010

- Lectured in both freshman and junior/senior courses.
- These classes include: Math 132,360, 457.
- Sample student evaluations available upon request.

Carnegie Mellon University, Pittsburgh, PA

Graduate Instructor and Teaching Assistant

2001 to 2007

- Instructor for MTH 122: Calculus 2 for Humanities and Social Sciences.
- Instructor for Summer course in Sequences and Series.
- Graduate Assistant in Master of Science in Computational Finance program. TA for classes in Stochastic Calculus, Term Structure, and Multi-Period Asset Pricing. Worked on Pittsburgh and New York campuses.

EXPERTISE

Mathematics:

- Applied Mathematics
- Probability and Stochastic Processes
- Modeling

Financial Engineering:

- Credit Risk and Risk Management
- Connections with Insurance Modeling

COMMUNITY
OUTREACH

- I have been involved with the high school recruiting efforts by MSU at the Department of Mathematics and the Honors College
- This effort includes making presentations off campus and attending evening functions to interact with parents and students and advocating for our programs at MSU. I believe very strongly in recruitment to build a strong program in actuarial science as well as mathematics, and I look forward to continuing with the efforts.
- I have been very involved as a media liaison for the actuarial program, setting up and being interviewed in local TV coverage and print media (*The State News* and *The Lansing State Journal*.)
- I have also helped produce a major promotional video for our BS in Actuarial Science program with *Good Fruit Video*.
- I also helped the College of Natural Science to establish the *Ron and Mary Simon Lecture in Actuarial Science* in honor of our donors. This event has become a centerpiece of our partnership with industry in Michigan, and has attracted top industrial and academic lecturers to give the keynote address.
- I was involved (2014) with the *City of Lansing's Financial Health Team (FHT)* as a co-faculty advisor and liaison between students in our Actuarial program and the team put together by Mayor Virg Bernero. Activities included participating in the Lansing City Council Retreat in September 2014 and the FHT Quarterly Meetings in October 2014 and January 2015.

AWARDS

Michigan State University

- The College of Natural Science Faculty Teaching Prize. College of Natural Science. 2014.
- The J. S. Frame Teaching Excellence Award. Department of Mathematics. 2014.
- Department of Residence Life: Recognition of Faculty Who Inspire Students. 2008, 2009.

CITIZENSHIP

- Canada: Citizen.
- USA: Permanent Resident.

LANGUAGES

- Portuguese: Fluent (mother tongue)
- English: Fluent
- French, Hebrew: Familiar

TECHNICAL SKILLS

- \LaTeX ¹, in multiple environments (Linux, macOS, PC.)
- Matlab, Mathematica: Familiar.

COMMITMENT TO DIVERSITY

As a non-native English speaker, I closely identify with students who are also non-native English speakers. I have found nothing but joy in interacting with students at Michigan State and Carnegie Mellon that are from different cultures. As the son of a proud Brazilian, it is of great importance to me to maintain my rich Latin American heritage. One way I am able to contribute to my heritage is through membership and activity in the Brazilian Community of MSU: Brazuca - Comunidade Brasileira. I also look forward to deepening my involvement with ESL speakers on campus and Michigan State's continuing focus on making this a more inclusive and welcoming campus.
